Journal of Virological Methods

Volume contents

Volume 56 (1996)

Publisher's Note

Virus nomenclature 1

Research Papers

R. Standring-Cox, T.H. Bacon and B.A. Howard (UK)
Comparison of a DNA probe assay with the plaque reduction assay for measuring the sensitivity of herpes simplex virus and varicella-zoster virus to penciclovir and acyclovir 3

H. Westh, S. Hoffmann, E. Christiansen and A.-M. Worm (Denmark)
Hepatitis B core antibody screening in a high prevalence group: comparison of three enzyme immunoassays using receiver operating characteristic analysis 13

R.A. Dewey, L. C. Semorile and O. Grau (Argentina)
Detection of *Tospovirus* species by RT-PCR of the N-gene and restriction enzyme digestions of the products 19

J.N. Zuckerman, L. Powell, R.M. Lequin and A.J. Zuckerman (UK, The Netherlands)
Determination of hepatitis A antibody response to vaccination by an enzyme immunoassay 27

P.L. Vernazza, J.J. Eron and S.A. Fiscus (USA)
Sensitive method for the detection of infectious HIV in semen of seropositive individuals 33

R. Jackson, D.J. Morris, R.J. Cooper, A.S. Bailey, P.E. Klapper, G.M. Cleator and A.B. Tullo (UK)
Multiplex polymerase chain reaction for adenovirus and herpes simplex virus in eye swabs 41

J.A. Thevasagayam, M.P. Wellby, P.P.C. Mertens, J.N. Burroughs and J. Anderson (UK)
Detection and differentiation of epizootic haemorrhagic disease of deer and bluetongue viruses by serogroup-specific sandwich ELISA 49

B. Navarro, J.A. Daròs, R. Flores (Spain)
A general strategy for cloning viroids and other small circular RNAs that uses minimal amounts of template and does not require prior knowledge of its sequence 59

0020-7101/96/$09.50 © 1996 Elsevier Science Ireland Ltd. All rights reserved

J.M. Mackenzie, M.K. Jones and P.R. Young (Australia)
Improved membrane preservation of flavivirus-infected cells with cryosectioning 67

M. Ito, M. Watanabe, H. Kamiya and M. Sakurai (Japan)
Non-radioactive assay of natural killer cell-mediated cytotoxicity against cytomegalovirus-infected fibroblasts by DNA fragmentation ELISA 77

B.J. Leahy, K.J. Christiansen and P. Collins (Australia)
A blinded comparison of two methods of viral susceptibility testing: plaque reduction assay versus microplate in situ ELISA 85

S.A. MacFarlane (UK)
Rapid cloning of uncharacterised tobacco rattle virus isolates using long template (LT) PCR 91

L.D. Dion, J. Fang and R.I. Garver Jr (USA)
Supernatant rescue assay vs. polymerase chain reaction for detection of wild type adenovirus-contaminating recombinant adenovirus stocks 99

Short communications

J.R. de Miranda, A.M. Espinoza and R. Hull (Cost Rica, UK)
Rapid, small scale purification of rice hoja blanca and *Echinochloa* hoja blanca tenuivirus ribonucleoprotein 109

R. McCluskey, R. Sandin and J. Greene (USA)
Detection of airborne cytomegalovirus in hospital rooms of immunocompromised patients 115

T.P. Leary, A. Scott Muerhoff, J.N. Simons, T.J. Pilot-Matias, J.C. Erker, M.L. Chalmers, G.C. Schlauder, G.J. Dawson, S.M. Desai and I.K. Mushahwar (USA)
Consensus oligonucleotide primers for the detection of GB virus C in human cryptogenic hepatitis 119

Erratum 123

Research papers

O. Musso, P. Sommer, E. Drouet, L. Cotte, M. Neyra, J.-A. Grimaud, M. Chevallier (France)
In situ detection of human cytomegalovirus DNA in gastrointestinal biopsies from AIDS patients by means of various PCR-derived methods 125

P.N. Nelson, B.K. Rawal, Y.S. Boriskin, K.E. Mathers, R.L. Powles, H.M. Steel, Y.S. Tryhorn, P.D. Butcher, J.C. Booth (UK)
A polymerase chain reaction to detect a spliced late transcript of human cytomegalovirus in the blood of bone marrow transplant recipients 139

T. Sirinarumitr, P.S. Paul, J.P. Kluge, P.G. Halbur (USA)
In situ hybridization technique for the detection of swine enteric and respiratory coronaviruses, transmissible gastroenteritis virus (TGEV) and porcine respiratory coronavirus (PRCV), in formalin-fixed paraffin-embedded tissues 149

S. Sakamoto, Y. Kino, T. Oka, M.L. Herlocher, H.F. Maassab (Japan, USA)
Gene analysis of reassortant influenza virus by RT-PCR followed by restriction enzyme digestion 161

Z. You, L.P. Villarreal (USA)
Mapping of polomavirus DNA replicative intermediates by two-dimensional gel analysis using chemiluminescent detection 173

I. Staropoli, J.M. Clément, M.P. Frenkiel, M. Hofnung, V. Deubel (France)
Dengue virus envelope glycoprotein can be secreted from insect cells as a fusion with the maltose-binding protein 179

E.S.G. Canning, M.J. Penrose, I. Barker, D. Coates (UK)
Improved detection of barley yellow dwarf virus in single aphids using RT-PCR 191

E. Sukhacheva, V. Novikov, D. Plaksin, I. Pavlova, S. Ambrosova (Russia)
Highly sensitive immunoassays for detection of barley stripe mosaic virus and beet nectrotic yellow vein virus 199

A.M. Vaira, M. Vecchiati, V. Masenga, G.P. Accotto (Italy)
A polyclonal antiserum against a recombinant viral protein combines specificity with versatility 209

L. Nielsen, B.F. Vestergaard (Denmark)
Competitive ELISA for detection of HHV-6 antibody: seroprevalence in a Danish population 221

M. Poljak, K. Seme (Slovenia)
Rapid detection and typing of human papillomaviruses by consensus polymerase chain reaction and enzyme-linked immunosorbent assay 231
